EDUCATION

Bachelor of Science in Computer Science
June 2026

University of the East
Recto Manila

EXPERIENCE

Full Stack Web Developer Intern

Codev Prime

Full Stack Web Developer

Developed a financial service web application for tracking transactions, loan records, and user account information with frontend, backend, and database integration.

Quality Assurance and Unit Testing

Performed QA and unit testing for the Pearl Pay application using RSpec, identifying bugs and validating application functionality and reliability.

AI Development and Training

Developed and trained AI-powered features including chatbot interaction, automated responses, intelligent assistance, adaptive feedback, user behavior detection, intelligent navigation, and real-time correction of student mathematical inputs. Implemented AI-generated hints and personalized guidance to improve user engagement, learning, and support.

Game Development and QA Tester

Developed 2D platformer games in Godot Engine with physics-based mechanics and player movement. Built simple 2D card games in Python (PyCharm), focusing on game logic, rules systems, and user interaction. Contributed as a QA tester by identifying bugs, validating gameplay mechanics, and ensuring overall functionality and user experience.

PROJECTS

Tugon : Artificial Intelligence Powered Tutor For General Mathematics

Bachelor's Thesis

Developed a full-stack AI tutoring system with real-time step-by-step math guidance, generative review tools, adaptive feedback for misconceptions, and an interactive learning interface with progress tracking.

Finsight AI : Intelligent Financial Management Workspace

Built a web application for personal finance management with AI-driven expense tracking, personalized budgeting insights, and interactive dashboards to visualize spending trends and savings goals.

MUSEO: Interactive Philippine Art E-Museum Web-Based Cultural Platform

Created a web-based cultural platform showcasing Philippine art across painting, music, dance, film, and architecture. Designed an interactive interface with multimedia integration and categorized navigation, serving as an accessible educational resource for students and art enthusiasts.

CREDENTIALS

Information Technology Specialist - Python
Certiport - October 2025

**ASAIHL Winter 2025 International Conference -Learn by Doing:
Experiential Learning in International Education**
Presenter | Ho Chi Minh City, Vietnam

SKILLS AND TECHNOLOGIES

- Languages:** Python, TypeScript, JavaScript, Ruby on Rails, Java, Php
- Frameworks & Libraries:** React, Tailwind CSS, TanStack, Recharts, Framer Motion
- Backend & Database:** Supabase, PostgreSQL, Drizzle ORM, Better Auth, XAMPP(Apache,MySQL)
- AI Integration:** OpenAI API, Google Gemini API, Prompt Engineering, Smile API
- Developer Tools:** Git, GitHub, VS Code, Vercel, Postman, Figma, PyCharm, CodePen
